

Welcome to the LEC!

On behalf of Russ Waitman, PhD, Principal Investigator of the Greater Plains Collaborative, and Kim Kimminau, PhD, of the University of Kansas Medical Center, we would like to welcome you to the 2015 Learning Engagement Conference.

This is our second annual event, and during these two days we hope to bring together GPC investigators and patients in a meaningful way. We would like to create a good exchange of how the network can help connect patients, health systems, and investigators to the emerging capabilities we have available to us.

We are extremely grateful that you have made the time and effort to attend this event. We know that travel can sometimes be inconvenient and stressful, and we thank you for making sure you could join us this week.

If you have any issues during your stay in Kansas City, or if you should require assistance with anything, you may contact Hillary Weedman at (816) 282-4734 and she will do her best to assist you with anything you need.

Your feedback is important to us, and we will be sending a follow-up survey after the LEC to gather your reflections.

We hope you enjoy your stay in Kansas City, and we look forward to gathering your input at the 2015 Learning Engagement Conference.

Thank you!
