

Greater Plains Collaborative Learning Engagement Conference Breast Cancer Presentations

Target Audience

Site PIs, researchers, patient representatives, IRB members, Informatics teams

Description

The GPC Breast Cancer Team successfully conducted a survey of over 1,200 women with a recent breast cancer diagnosis. These survey responses were linked to EHR files to create a powerful dataset that is now being used by ten manuscript-writing teams to explore a range of topics. This session will provide a sample of recent findings that are currently being prepared for publication.

Venue

1:00 pm – 2:30 pm Paseo Room
